

# How Plants are Increasing Production & Profits with a Genius 5.0 Batch Weighing System

Tired of inaccurate and slow weighing processes... production reporting and not being able to maximise your plants efficiency with your current systems or technology?

## ***What Makes An Automated Genius 5.0 Batching Solution So Powerful and Competitive...***

The Genius 5.0 are state-of-the-art computerised automated systems developed by our own software engineers, based on over 30 years' experience in the weighing industry. The batching systems are used in a variety of applications and processes.

- Plant operation and monitoring
- Repeatable batch weigh accuracy
- Full product traceability
- 24/7 support & built-in diagnostics to minimize downtime
- Customised reporting
- Alarm and downtime summaries
- Mobile and tablet interface
- Real time batch data via Intranet / Internet
- Online accessibility including cloud reporting
- S88 compliant
- Web server technology
- Standard PC hardware
- Modular hardware & software, allows for ease of future expansion
- Seamless interface to ERP or other software packages

"The feedmill control system upgrade, managed by Gordyn & Palmer, was delivered on time and on budget with only minor loss of production. We are delighted with the performance and reliability of the system. The software is efficient and easy to use. Service and response times are excellent."

**Garth Oakroot**  
**Riverina Feedmill Manager**  
**Baiada Feedmill Hanwood**

"One of the most important aspects of working with a supplier of this type of equipment, is the suppliers employees. I congratulate Gordyn & Palmer on the professional attitude of their staff. Not only during normal business hours, but most importantly, after hours. Their electrical & industrial automation is first class and we commend the Company on its products and after sales service".

**Rob Jenkins**  
**Group Operations Manager**  
**Reid Stockfeeds**
