

Optimise Production & Profits With A Genius Pellet Press Controller

Increase your production output with the Genius Pellet Press Controller, which is a highly accurate automated controller optimising pellet quality and eliminating costly blockages.

What Makes An Automated Genius Pellet Press Controller More Powerful and Competitive...

Developed by Gordyn & Palmer software engineers this State-of-the-art computerised automated system is both cost and production effective and can be used for:

- Optimised pellet quality, completely independent of operator
- Consistent throughput, delivering increased productivity
- Eliminates blockages and costly downtime
- 24/7 support & built-in diagnostics
- This Pellet Press Controller supports 4-pellet presses, with unlimited number of formulae per press
- Critical parameters are formula based making it ideal for difficult materials
- Keypads and displays for local press control ensuring operators can access the information they need at the press
- This controller can be readily interfaced to other systems
- It's easy and affordable to upgrade from your existing manual control
- Production reporting including alarm and downtime summaries
- Modular hardware & software, allows for ease of future expansion
- Online accessibility including cloud reporting

"Prime has used Gordyn & Palmer for our Electrical Engineering and Consulting needs for over 10 years.

The Gordyn & Palmer team has always delivered excellent 24/7 Service and Quality.

Tried, tested, proven and reliable. This is what keeps us coming back.."

Peter Nozworthy
Operations Manager
Prime Stockfeeds

Gordyn & Palmer have provided Ridley Aqua-Feeds with professional cost effective PLC and SCADA support since 1998. With the experience, knowledge and customer service I am always confident in achieving our desired outcome.
